

ISLAMIC BANKING MASTERCLASS

Grounded in Shariah, Built For Purpose, Designed for Impact

WHAT YOU'LL MASTER:

- The real-world application of classical Muamalat contracts in today's banking environment.
- Structuring and deconstructing Islamic banking products using practical, industry-tested frameworks.
- Innovating beyond Tawarruq, integrating ESG values and Maqasid al-Shariah for meaningful outcomes.
- Managing the entire lifecycle of Islamic banking products — from idea to market implementation.

Mr. Yuzly Bin Yusof
Former Head Muzn Islamic Bank,
National Bank Of Oman

3 LEVELS OF IMPACT

Level 1

Level 1

Muamalat in Practice & Shariah Governance

Grounded in Shariah, Built for Purpose

- This module builds understanding where it all begins — at the roots of Muamalat. It reintroduces participants to Shariah governance and classical contracts, not as historical references, but as living principles that continue to shape modern Islamic finance.
- Participants rediscover how these elements come together to form the blueprint of every Islamic financial product. It's about grounding before growing — reconnecting product practice to divine purpose.

The mindset shift: from "Shariah as compliance" to "Shariah as compass."

RM 1,750

NORMAL PRICE : ~~RM 2,500~~

Level 2

Structuring, Assembly & Deconstruction

Build, Break, Understand

- This module helps participants uncover the unseen logic within every Islamic banking product. They explore how contracts are layered, sequenced, assembled, and deconstructed — learning not only what works, but why it works and what happens when one element is misplaced.
- Through guided deconstruction exercises and simulated case labs, participants begin to see Islamic banking not as documentation, but as architecture — where legal enforceability, commercial viability, and Shariah integrity must exist in perfect balance.

The mindset shift: from "structuring for approval" to "structuring for purpose."

RM 2,450

NORMAL PRICE : ~~RM 3,500~~

Level 3

Innovation, ESG & Social Finance

Designing for Impact

- This module empowers participants to innovate with purpose while staying grounded in Shariah. Building on the foundations of the earlier levels, participants learn how to integrate ESG, VBIAF, and social finance into a single forward-looking framework — where innovation aligns profitability with purpose.
- It's about moving from ideas to impact, reimagining Islamic finance as a force for sustainability, inclusion, and shared prosperity.

The mindset shift: from "products for compliance" to "solutions for communities."

RM 3,150

NORMAL PRICE : ~~RM 4,500~~
